ACCESS TO REAL-WORLD ACTIONS FOR AI AGENTS

PROBLEMS

BOLZ .dev

Services

82%

of companies risk not appearing in AI agent response results and losing customers

AI agents

AI-agents pay

20–40%

of their total budget to attract users through search engines, but then redirect them back via links for completing actions (such as purchases), causing users to leave.

The best model (GPT-5) achieves only

43.72%

overall success rate in performing real-world task

"lost profit" only ChatGPT from referral sales

$18–55 MLN/YEAR

Users

For example, searching and purchasing airline tickets via web services —

20 MIN

with the help of an AI agent —

30 MIN+

REASONS BEHIND THE PROBLEMS

BOZZ .dev

Services

Real sector companies that appear in the results already receive

10%

of their referral traffic from GenAI products.

AI agents

IN 100% OF CASES

user intervention or navigating to the order's web page will be required to complete the action

AI agents

IN 50% OF CASES

limited functionality and approaches to the use of AI agents in attracting and retaining users do not allow us to measure the real ROI from their implementation

AI agents

The data on which the model was trained is limited to a certain date, lack/low level of dynamic content extraction:

16.9%

Users

AI agents duplicate the actions of a living person from visiting search engines and then following URL links

Sources: WARC, Emarketer, Nypost

WE HAVE SOLUTION

BOLZ .dev

BOLZ connector is a platform that leverages the power of the Model Context Protocol (MCP) to solve the critical challenges faced by AI agents today.

Services

Different services and e-commerce platforms using our plugins, web interface, and REST API will be able to appear directly in the responses of AI agents.

Bolz connector

AI agents

By using the Bolz Connector, AI agents can enable users to seamlessly complete actions such as rentals and purchases—without extra effort or unnecessary clicks.

By leveraging Bolz Connector data, agents will be able to provide users with information that is up to

90%

clean and accurate

Users

With Bolz Connector, completing a purchase or rental through an AI agent can take as little as

1 MINUTE

WHY NOW

BOLZ .dev

AI agents

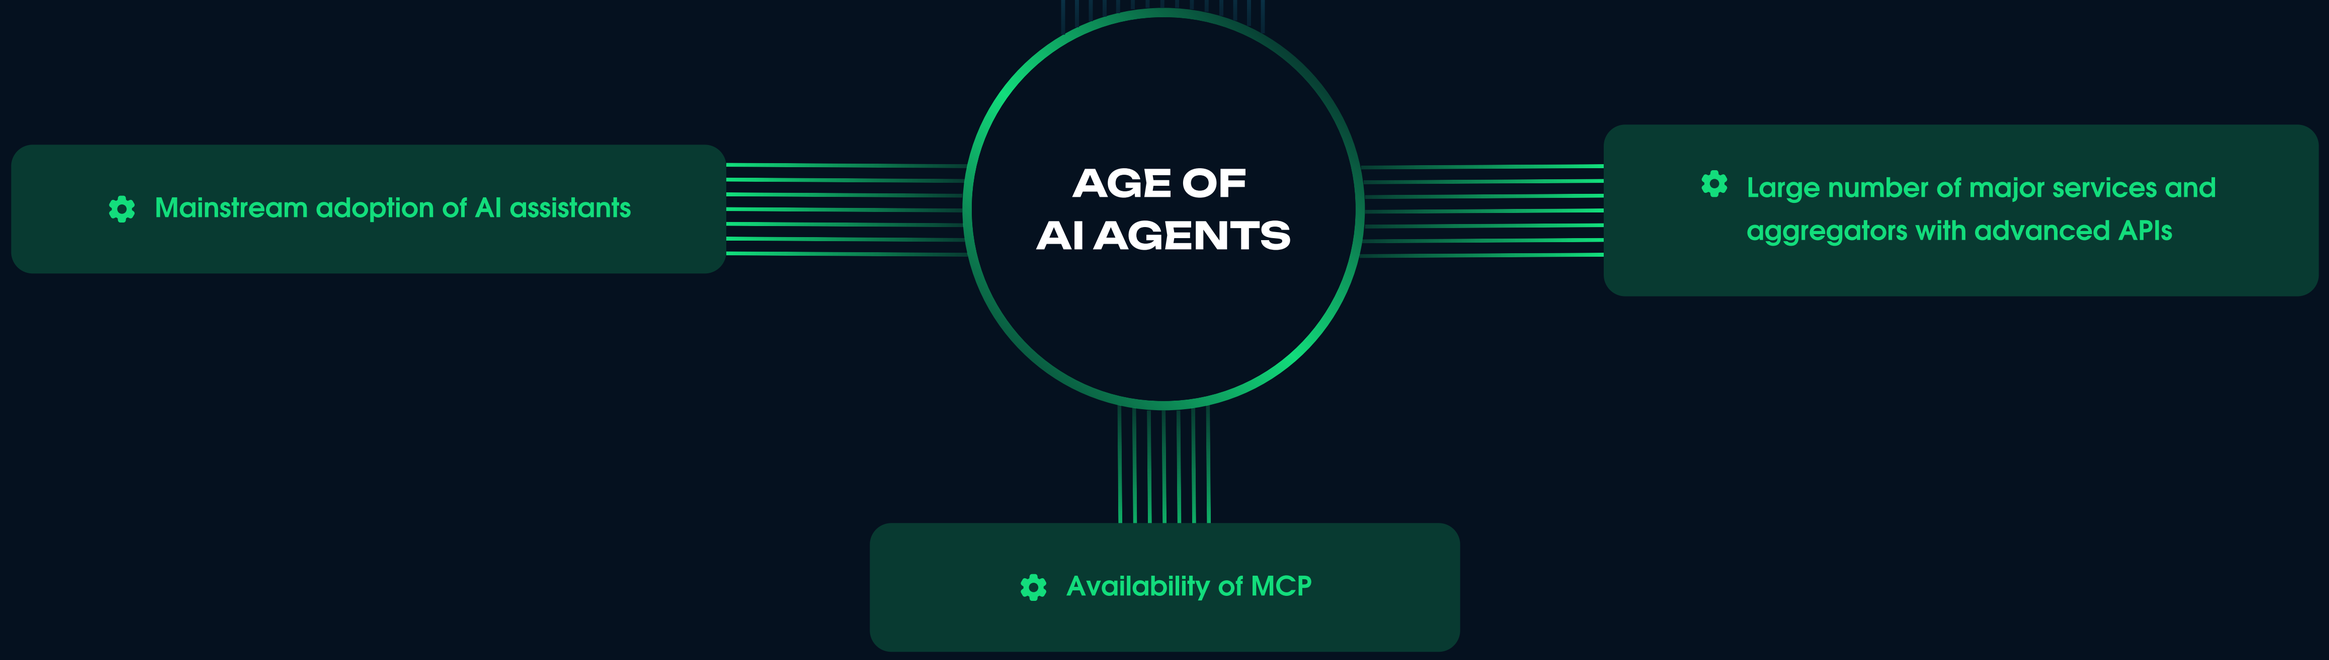

Want to earn money and retain users

Services

Services want to get the maximum result from the money spent on attracting and retaining an audience.

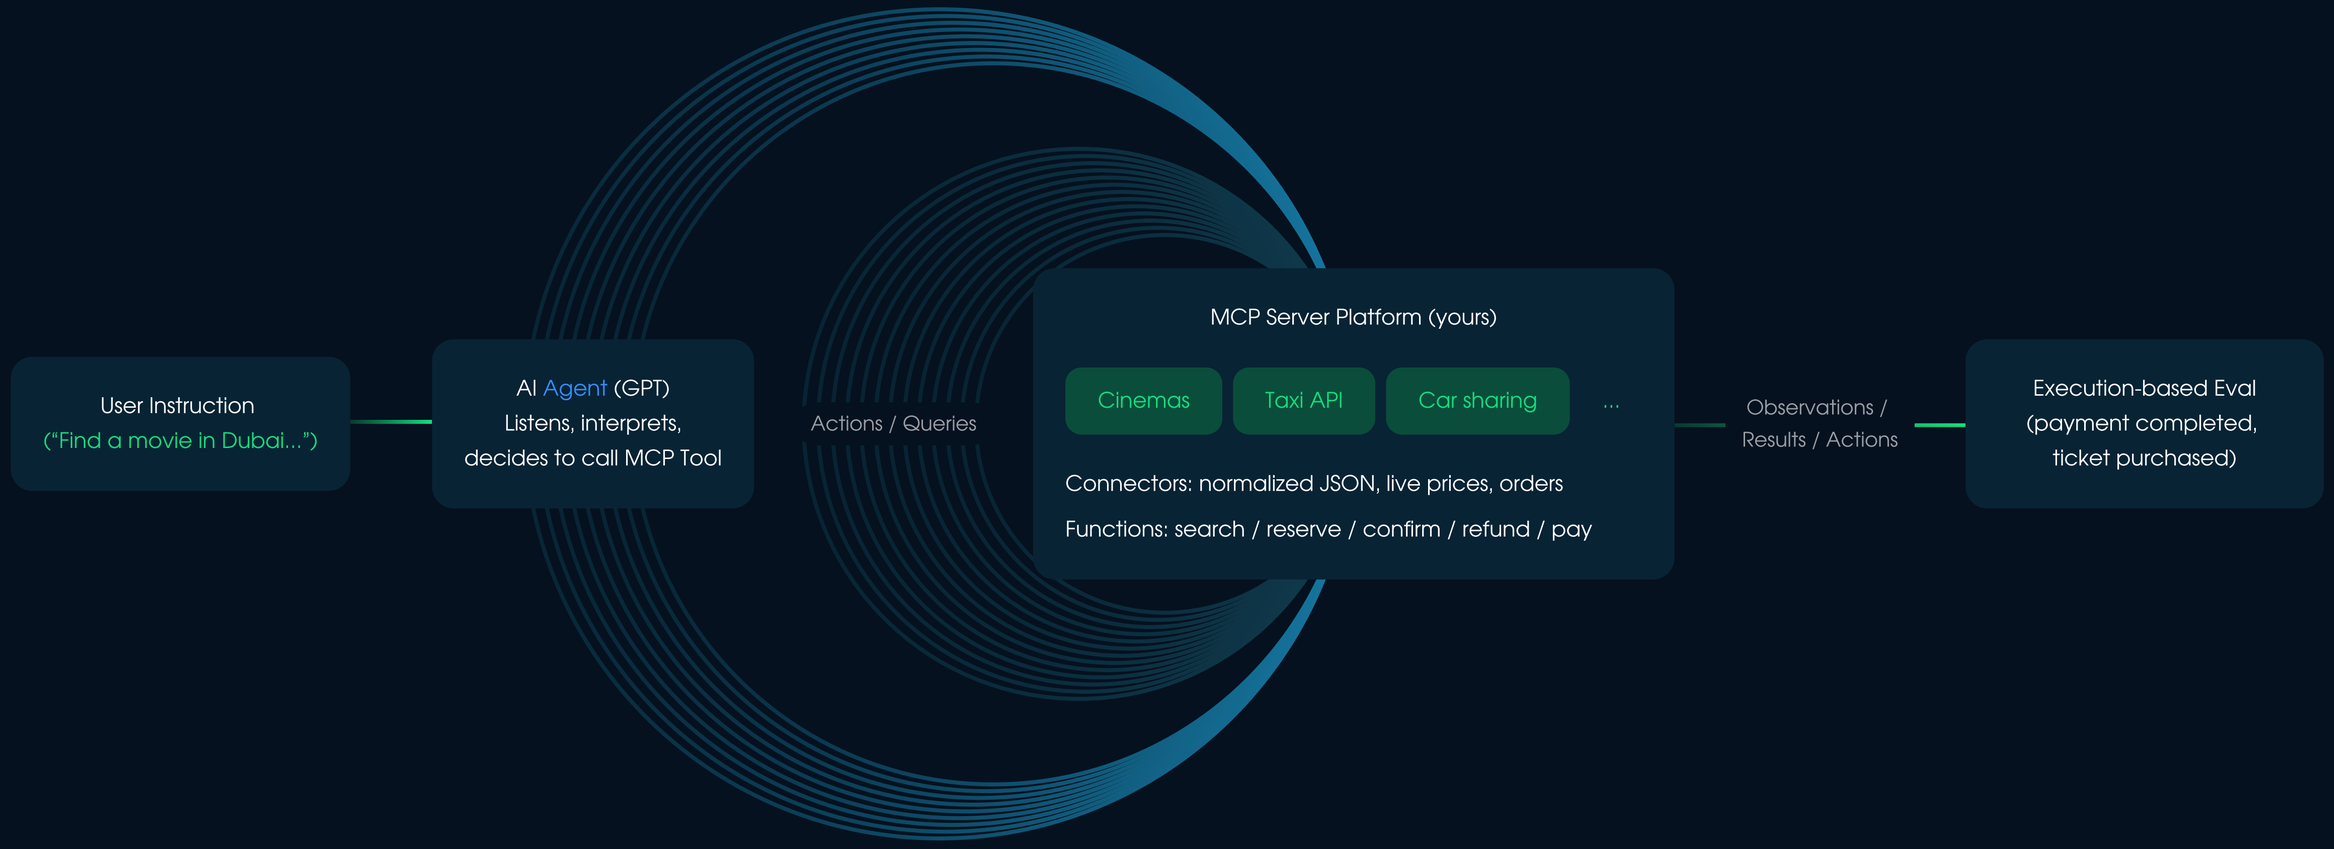

Users

Users want AI agents to be a real assistant in life

HOW DOES THAT LOOK

TRACTION

BOLZ .dev

AUGUST 2025

MVP has been developed

3-6 MONTHS

- Successful integration with major AI agents
- Pilot project
- 1000+ transactions performed through the platform

6-12 MONTHS

- Expanding MCP functionality with support for complex real-world scenarios + wallet verification and integration
- Reaching 10.000+ active users through various MCP agents
- Launching in 2-3 additional geographic markets

12+ MONTHS

- Building an intelligent MCP platform with predictive capabilities to become a standard for real world actions in the MCP ecosystem
- Processing 1 million+ transactions per month via MCP protocol
- In 10+ countries with localized MCP servers
